Education

Arizona State University — Tempe, AZ
BS Computer Science *GPA:* 3.94 — Aug. 2018 – Dec. 2020

Mesa Community College — Mesa, AZ
Associate of Science *GPA:* 3.8 — Aug. 2015 – May. 2018

Work Experience

██████████████████████ — Remote
Fullstack Software Developer — Mar. 2021 – Present

- Developed and maintained over 33% of ████████ services using TypeScript / JavaScript, Node.js, and Electron.
- Primary focus in back-end functionality of services. Occasionally spent time maintaining or adding front-end functionality using React / JS.
- Regularly communicated and interacted with ████████ in a remote Agile development environment.

██████████████████████████████ — Mesa, AZ / Remote
Software Developer II — Dec. 2020 – Aug. 2021
Software Developer Intern — Mar. 2019 – Dec. 2020

- Developed and maintained ████████████████████████████████. Primary focus in back-end functionality using C# / .NET Framework and JavaScript.
- Worked with a senior mentor to develop a new feature ████████████ Individually architected back-end functionality / data structures, and developed front-end interfaces to meet the required specifications.
- Individually crafted several abstractions to interact with existing code. One of which was an abstraction to insert one-to-many object mappings while considering values from a new foreign-key record using the system's ORM framework.
- Significant time spent debugging pre-existing issues. Redesigned and reimplemented several areas of the system.
